

Benefits

- Single, trusted contact for your hosting and domain services
- Assurance that your website is hosted in a secure environment and managed following recognized industry best practices.

Whether you're looking for domain registrar/DNS services, somewhere to co-locate your own equipment or to lease a server(s), Quintica offers a range of services to meet your needs and can offer unparalleled, in country security, speed and bandwidth.

Solution Architecture:

Quintica's expertise in Service Management ensures that you receive quality hosting and domain management through our range of hosting tools and domain services. Our commitment to delivering the highest levels of service ensures that you can expect the highest levels of service when you host your servers with us.

Our service provides you with the flexibility to choose the OS your website or application runs on and the ability to run as many applications or websites on the server as you require.

Quintica's Domain Name Services (DNS) offers fully redundant domain name services, ensuring a domain name service you can rely on.

Facilities:

Quintica's data centre facility features comprehensive physical security, UPS, emergency backup generators, and fire Suppressant systems, ensuring your data remains safe at all time. Quintica have adopted a 'Green Computing' strategy for managing the data center, giving you piece of mind that your data is not only safe but managed responsibly.

About Quintica

Quintica is a quality driven, consulting, education, technology and managed service provider. We assist companies to meet their business objectives by understanding and bridging the gap between their defined strategy and operations.

We ensure the correct people, processes (operational & support) and technology are in place to support and deliver the key services your Organisation depends on; this is done using our proprietary methodology, the Q-Journey.

The Q-Journey is based on international standards and frameworks and is delivered through a collaborative approach to ensure the highest level of quality is maintained.

The Q-Journey focuses on helping Organisations manage their COSTS, CASH and CUSTOMERS to ensure long term business sustainability and covers the full spectrum from consulting and training to implementation and cloud computing services.

Quintica was founded in 2001 with a remit to create a classic Service Management company. In 2009, Quintica and the Eaton Group, a telecommunications infrastructure provider, saw an opportunity to extend an existing and very successful joint venture and the two companies merged.

Quintica has developed its business based on four core services; Information Technology, Business Management, Human Resources and Customer Relationship Management, each of which shares an objective to achieve and maintain global standards. Through these services we enable our clients to enhance their business, manage cash-flow, reduce their costs and attract new customers, resulting in businesses which stand head and shoulders above the competition.

To deliver our promise, we access the widest array of specialist expertise. Our approach is a collaborative and consultative one, with no pre-subscribed solution, but rather a bespoke creation deployed to suit your specific requirements based around our methodology.
